

*Fredrik Sandin, you've been nominated as  
Teacher of the year 2014*

Each year the Student union of engineering hands out an award for the best teacher of the year. Its purpose is to highlight good teachers and their efforts for the students at the Faculty of Engineering at  
LTU.

One or more of your students has nominated you to this award for your efforts in 2014. Simply being nominated for this award says a lot about you as a teacher and your commitment for the student's  
future and development!

The jury decided to give the award to someone else this year.

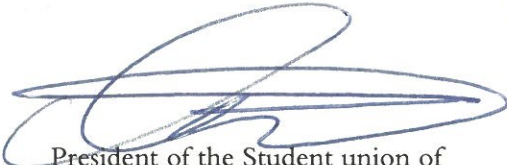

Even if you did not win the award this year we hope that you keep striving to become a better teacher, as you hopefully see the nomination in it self as a win. An acknowledgement that the work you've put  
in has made a difference.

We, the students, cannot thank you enough for choosing to spend your time and energy on bettering yourself and us so that we, after we're done with our education, can look back and identify you as the  
teacher that made a difference for us.

We, the student union of engineering, feel that it is important to promote the initiative you stand for and the work you've put into the educations at this university. We are proud over the fact that there  
are so many to promote and we would prefer to hand the award out to all nominees.

It is important for you to remember that, for the students that nominated you, you've already made a difference and we from the Student union of engineering hope that you keep on investing energy into  
your students.

You make a difference

President of the Student union of  
engineering

Axelina Flote

Chairman of the Jury

Jesper Dalgren

Head of Education affairs
